# Finishing

---

- Cut the wool leaving around a 5cm tail. Pull it through the remaining stitches and feed through the hole at the top of the hat and pull tight.
- Turn the hat inside out. Sew in the finishing tail closing any hole that may still be at the top.
- Sew in the CO line.

With the green wool. Crochet a chain of 4 to 6 stitches, this is dependent on the thickness of the wool and also how long you would like the stem to be. Sew it onto the top of the hat.
